SKILLS

Language : JavaScript, Typescript, Python.

Technologies/Frameworks : React.js, Next.js, Node.js, Bun, Express.js, Hono, Socket.IO, MongoDB, Mongoose, Cloudflare Workers, Tailwind CSS, SCSS, ShadCN, Vercel, AWS EC2.

Developer Tools : Postman, Antigravity, Git, GitHub, Docker, Codex (Open AI)

PROJECTS

Youtube Backend

- Built a scalable YouTube-style backend using Bun, Hono, MongoDB, and Better Auth.
- Developed 50+ APIs supporting videos, playlists, tweets, comments, likes, subscriptions, and watch history.
- Implemented pagination, filtering, Zod validation, rate limiting, and media storage using Cloudinary + Vercel Blob.

Strongly

- Developed a gym management platform using Next.js, TypeScript, Tailwind CSS, and MongoDB Atlas.
- Built features for attendance tracking, member management, and admin controls with secure Google OAuth authentication.
- Created 12+ production-grade APIs and deployed the application on Vercel.

Chatify

- Built a real-time messaging app using Socket.IO with instant text and image sharing.
- Configured WebSockets from scratch and deployed the backend on AWS EC2.
- Integrated Vercel Blob Storage for scalable image handling and deployed the frontend on Vercel.

EDUCATION

Bachelor of Computer Application

2025 - Present

Shyam Lal College, Delhi
